# DIGITAL DERMATITIS

- Unfortunately still a hot topic – why??
  - Lack of knowledge
  - Lack of proper management?
- Currently running a project on early detection and treatment of lame cows (Systematisk halthedsscore)
  - Lameness scoring all cows every other week => treat ASAP
  - Time consuming to locate newly lame cows
  - Still hard work to treat DD's and other claw lesions
  - Could we already be too late using this approach?
