

## Handelskanaler af økologisk såsæd i landene omkring Danmark

Nærværende dokument beskriver de forhandlere af økologisk såsæd, der er i landene omkring Danmark.

Hvor det er muligt, er der angivet de sorter, som hver virksomhed forhandler. Derved dannes en indikation af hver virksomheds aktivitetsniveau og interesseområde.

Dokumentet er udarbejdet for at gøre det lettere for kornforædlere at vælge og kontakte potentielle forhandlere af de sorter, der er egnede til økologisk jordbrug. Hensigten er at medvirke til øget forædling til økologi og øget udbud af sorter til økologi.

Følgende lande er medtaget og listet i alfabetisk rækkefølge efter deres engelske navne:

- Austria
- Belgium
- Czech Republic
- Estonia
- France
- Germany
- Luxemburg
- Norway
- Sweden
- Switzerland
- The Netherlands
- United Kingdom

Projektet er finansieret af Fonden  
for Økologisk Landbrug samt

*Tove Mariegaard Pedersen og Anke Stubsgaard*

*Videncentret for Landbrug, Økologi, december 2012*
