Prioritet: Høj

We are approaching the third BONUS Symposium "Sustainable Ecosystem Governance under Changing Climate and Land Use in the Baltic Sea Region". This will be held in the European Solidarity Centre in Gdansk, Poland, on March 14th to 16th 2018.

This information is sent out to all registered conference participants. The Conference Program and the Book of Abstracts are now final and both can be downloaded from the conference webpage <http://bonus2018.eu> and attached to this email. A printed version of both documents will be provided at the Registration desk when you arrive to the conference.

When you prepare for the Symposium, please note the following:

Key Notes

Key Note speakers are given **40 minutes** for their presentation, followed by **10 minutes** for questions and comments from the audience.

Oral presentations

Oral presentations are allocated **15 minutes** for the presentation and **5 minutes** for questions and comments from the audience. There will be two or three parallel sessions, and it is thus vital that the speaker sticks to the given time frame to allow persons in the audience to move between sessions. The chair persons will be advised to ensure a strict time keeping.

All speakers are asked to ensure that their presentation is uploaded in the session room latest kl 9.00 on the presentation day.

Poster presentations

Each poster presentation will be given a poster stand, approximately 59 * 83 cm, i.e. A1 format. Material to affix your poster to the stand will be available at the registration desk. Please ensure that your poster is displayed from the start of the conference as there will be an approximately one hour poster session after lunch the first day, and additional sessions at lunch time day 2 and 3.

Would You have any questions - please do not hesitate to contact the [Conference Office](#).

On behalf of the Organizing Committee representing the four projects:
