Jens ... H.	Have just released your payment :-)	May 30, 2012 9:19 am
Max D.	Thanks, Jens. I received the funds. Max	May 30, 2012 9:19 am
Jens ... H.	Just tested the attached file and it works perfect. This is my first buy on Elance - I guess i have to accept job well done somewhere to release your payment	May 30, 2012 9:15 am
Max D.	I'm including the file as well since it is hard to read in the previous post. However, the formatting was changed in my editor, and I might have made other changes (such as console.log) elsewhere in the file, so you would be advised to just copy the few lines in qrbtn.click. qr-generator.html	May 30, 2012 9:08 am
Max D.	<pre><script type="text/javascript"> \$(document).ready(function () { var qrchecked = "", qrradio = "", qrbtn = \$("#qr-btn"), qrindhold = \$("#qr-indhold"), qrkode = \$("#qr-kode"), qrhref = \$("#qr-href"), qrfb = \$("#qr-fb"), qrurl = \$("#qr-uri"), qrbtn.click(function () { qrradio = \$("inputradio:checked").val(); var qrText = qrindhold.val(); if (qrradio == 'tekst') qrText = \$("#tekst-cont textarea").val(); qrkode.attr("src", "http://qrickit.com/api/qr?qrsize=220&d=" + qrText+"&addtext="+TxtLabel.value); qrhref.attr("href", qrkode.attr("src")); }); });</pre>	May 30, 2012 9:05 am
Max D.	Yes, Jens. Do you need the full .js, or can I just tell you which lines to change? Regards, Max	May 30, 2012 9:03 am
Jens ... H.	Hi You got the job - and I guess you already solved the problem and can deliver right away? Regards Jens Peter Hansen	May 30, 2012 8:54 am

All times are in EST (UTC-05:00)
