**Jens Erik Jensen**

I am trying to get an overview on pesticide sales (and if possible also pesticide use) statistics for various European countries. The most recent Danish statistics just came out and may be found here (text in Danish): <http://www2.mst.dk/Udgiv/publikationer/2012/10/978-87-92903-....>

If you are able to give me directions on how to find similar statistics for your country, please post a reply. I am prepared to try to read text in your national language, but if English summaries exist, I would certainly be interested in those, too.

**Jens Erik Jensen:** Dear Marie-Sophie, Thank you very much for linking this document. I will contact Laurence GUICHARD for exact and more detailed numbers, but this was certainly interesting.

**Hanna Skogster:** Dear Jens Erik, You can find Finnish sales statistics here: <http://www.tukes.fi/en/Branches/Chemicals-biocides-plant-pro...>

Best regards.  
Hanna Skogster
