 **Trine Balskilde Stoltzenborg**

Here I try to give an insight in what the precautionary principle is demanding - and why it makes sense to go through its steps. It is meant as a an introduction. A basis to discuss from. I will explain it further after easter - or when you invite me to!

Beware of seasickness when you watch it - it is moving to keep you awake:) It is difficult stuff!

Welcome to "The precautionary principle - a reason and a way to act"
