WaterCAP-Taskforce

WaterCAP-Taskforce accumulates knowledge and experience on water and climate change adaptation from many countries and multiple sectors in the North Sea Region. The knowledge and experience is gained through the former InterReg projects dealing with Water and climate change.

The WaterCAP-Taskforce partnership will be a comprehensive knowledge base for the North Sea Region (NSR) and made available to stakeholders through the transnational taskforce. The project aims to supply water solutions in the NSR and to define ideas for projects in the InterReg V programmes.

WaterCAP-Taskforce at freshwater conference in Riga

The ENCORE Fresh Water Project has focus on reduction and/or avoidance of threats of groundwater in Buried Glacial Valleys (BGV's).

The WaterCAP-Taskforce has contributed ideas to the project - and is co-hosting the freshwater conference in Riga on November 25th 2013.

Eksempel på bred interesse/medlemskreds

The screenshot shows the Facebook interface for the 'WaterCAP' group. At the top, there is a search bar and navigation options like 'Marianne Greve', 'Find venner', and 'Startside'. Below this is a row of member profile pictures. The main content area is divided into two columns. The left column lists 15 members with their names, photos, and brief descriptions of their professional backgrounds, such as 'Marianne Greve Rasmussen' (Aslborg Universitet) and 'Rolf Johnsen' (Aarhus universitet). The right column contains group information, including the group name 'WaterCAP', a description of the group's purpose (accumulating knowledge on water and climate change), and a list of members. There are also buttons for 'Tilføj personer' and 'Om'.
