for Agriculture

Denmark

Fatal accidents, danish agriculture

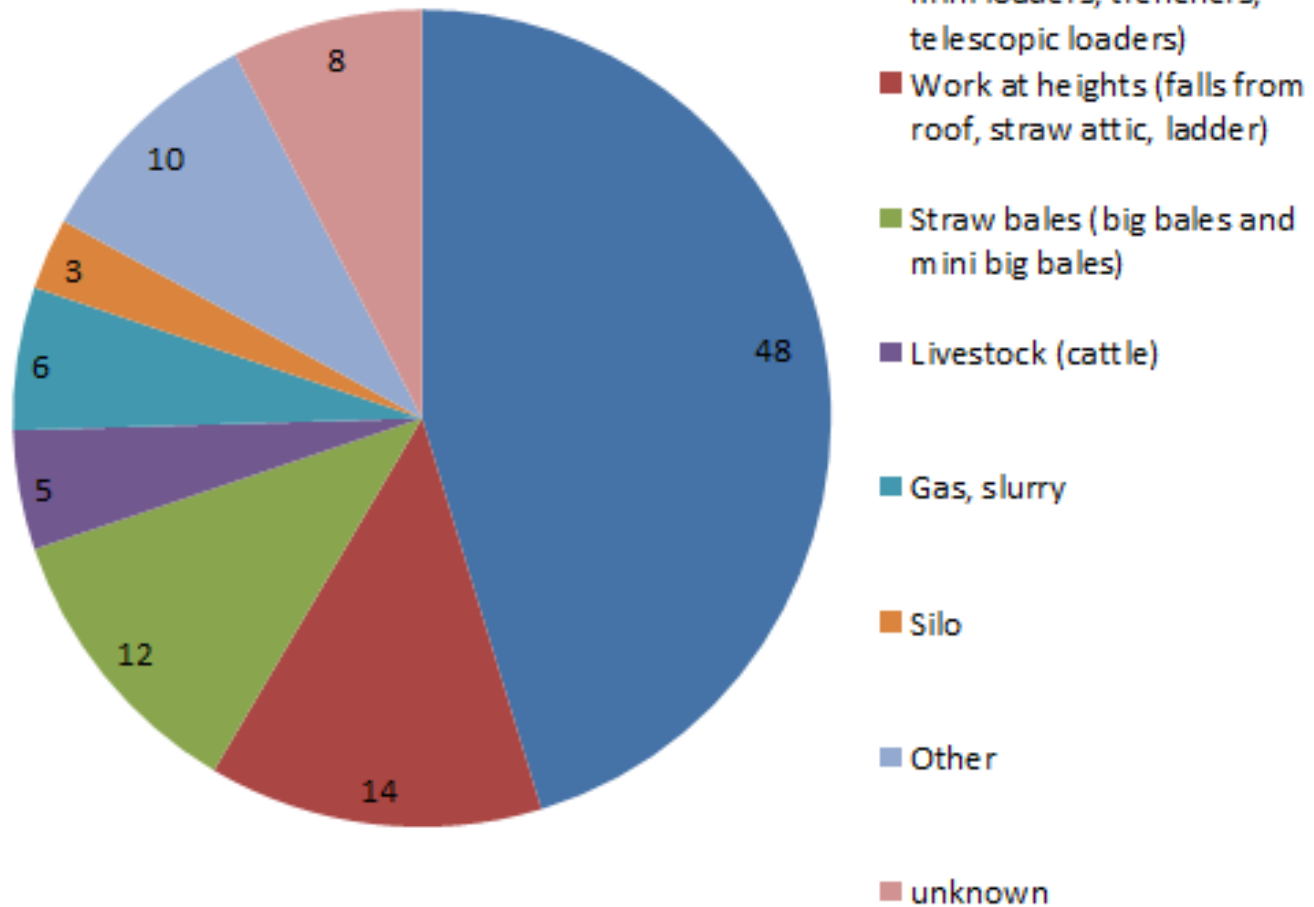

7 fatal accidents in Denmark 2013

- 1) A 55 year old farmer slipped into a slurry wagon
- 2) A 65 year old farmer was hit by an iron rafter under construction at the farm
- 3) A 55 year old farmer was squeezed into death between the tractor and wagon with the bale of straw (in harvest).
- 4) A 78 year old farmer was run over by a combine harvester
- 5) A 61 year old farmer was run over by his tractor.
- 6) **And 7)** Two men (41 and 46 years old) died in a slurry tank – a pump were to be repaired. The concentration of hydrogen sulphide has probably paralysed them both.

Causes for the accidents

Fatal accidents 2001-2014, agriculture

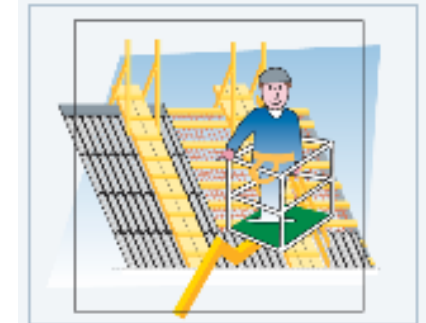

Working Environment Authority – 2020 strategy

The strategy has 3 prioritised areas that demands intense efforts

- Serious accidents
 - psychological area
 - ergonomic
- The number of **serious accidents** should be reduced by 25 percent.
 - The number of **psychological** overloaded is reduced by 20 percent.
 - The number of suffering because of **ergonomic** challenges is reduced by 20 percent.

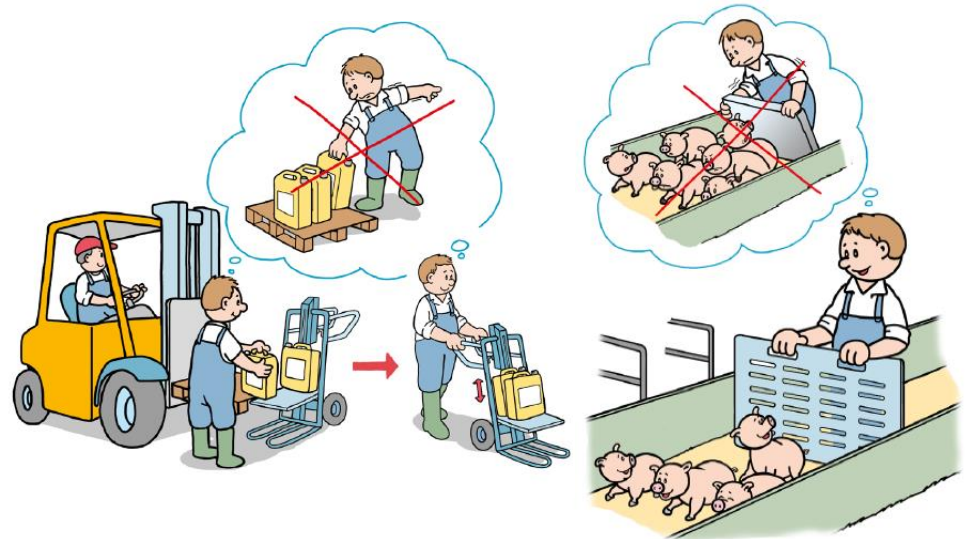

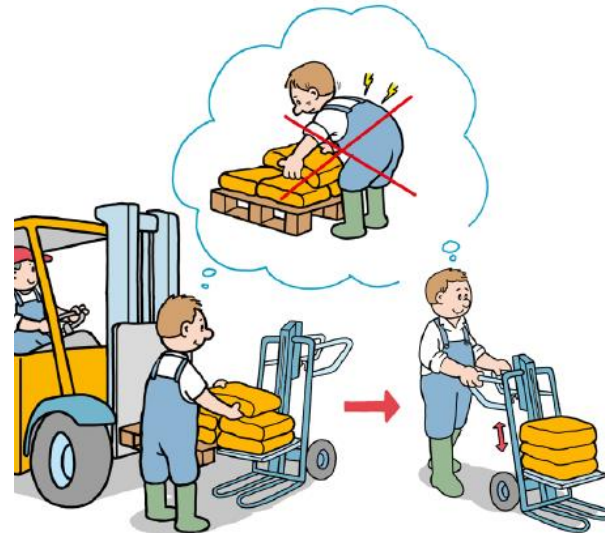

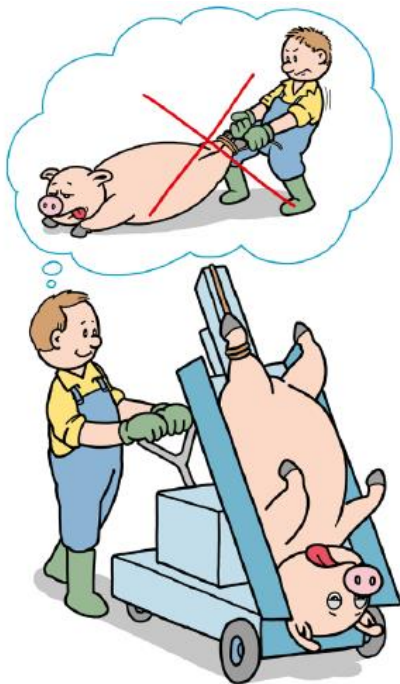

Initiatives by the authorities

- fact sheets (**accidents**)
 - Machines
 - Working in heights
 - Handling straw bales
- Are up to start a **new screening** of agriculture the 1st of january 2015 (to put focus on all 3 kind of areas)
- Packages to put focus on **ergonomic**

Focus ergonomic

- Small movies
- Packages including guidelines

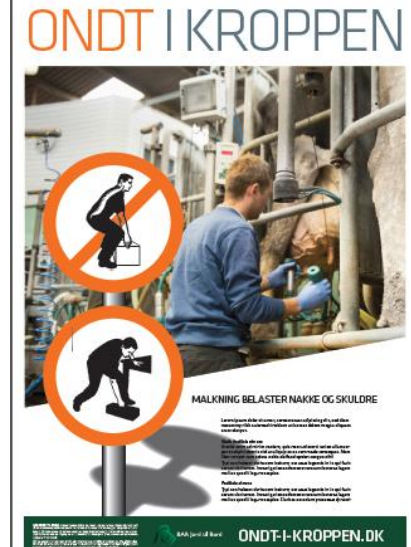

Initiatives in danish agriculture – by the knowledge centre and local consultants

- Continuing doing working environment assessment at farms
- Working Environment Award

Projects

- Slurry
- Working in height
- Movies and posters with focus on ergonomic

Succes?

Material targeted at children and agriculture for handing out at cattle shows:

- Pixi book
- Colouring book
- Posters
- Website

Almost 12,000 distributed copies.
 At www.galegaarden.dk you will find good advice for children and adults concerning safety.
