WP6 - Communication deliverables and pipeline

Achieved since October:

- Newsletter
- Updating website with news

To come:

- Newsletter in March
- Communication on funding for more pilot areas and testing on existing pilots (broad media)
- On location video and article when IBZ in Sillerup is being established
- Scotland study trip communication (invitation of a journalist?)
- First steps toward final workshop – national/international, who to invite etc.?

Ideas and inputs for newsletter

Brainstorm - Sebastian's freestyle. Go eller no-go

- Søren Holmstrand Christiansen's master thesis on brink erosion (WP3) ?
- *ENVINA session – on establishment obstacles (WP6)*
- *Hydrology day in Odense (WP6)*
- FLEC event in New Zealand (WP6)
- *Veronica Moset – experiment on biogas. Cuts and harvest. Data on methane, organic matter and dry matter. (WP1)*
- *Results/indication on CNP-content in plants and soils from autumn/winter? (WP1 and WP2)*
- *Result on flow and nutrients in the Fillerup site for the whole 2016 or perhaps from Spjald? (WP4)*
- *Preliminary results (as presented at SWS, 2017 Danish Environmental Economic Conference and articles). WP5*

Work shops or conferences of relevance? (dNmark International Conference 27.-29. June)

Short notes for the website? Presentation of students?
