Emne: VS: WP9 meeting, Future Cropping, Monday 10 September

Hej Flemming

Tak!

Deltagerliste:

Ioannis Varvaris, Saghar Khodad Motarjemi, Triven Koganti, Bo V. Iversen (AU)

Henrik Skovgaard, Bjarne Moeslund (Orbicon)

Leif Knudsen, Kathrine Hauge Madsen, Flemming Gertz (SEGES)

Simon Stiesen, Anker Højberg, Ida Karlsson, Raphael Schneider (GEUS)

Ivan Vela (Ejlskov)

Bo

Fra: Bo Vangsø Iversen

Hi all

Program for the meeting Monday 10 September at Orbicon, Jens Juuls Vej 16, Viby J.

We will start at 10 AM (10:10 maybe since the people from GEUS will arrive a bit late :-).

Participants (14 persons):

Ioannis, Saghar, Triven, Bo (AU)

Henrik, Bjarne (Orbicon)

Leif, Kathrine, Flemming (?) (SEGES)

Simon, Anker, Ida, Raphael (GEUS)

Ivan (Ejlskov)

Agenda:

1. Welcome (Bo)
2. General information from the FC project leader (Kathrine)
3. Redox Probe (Anker/Ivan)
4. Redox database (Simon)
5. Filter technologies (Henrik/Bjarne)
6. Filter technologies in practice (what's going on at SEGES?) (Flemming?)
7. Lunch

Continued work in relation to tile drain discharge and water transport in the landscape (work group)

8. Tile drain mapping (Triven)
9. Predicting tile drainage discharge using machine learning techniques (Saghar)
10. Tile drainage discharge and tracer transport modelling (Ioannis)
11. Drain and catchment scale modelling (Ida)
12. Hydrological signatures across Denmark (Raphael)

Length of presentation should be app. 15 to 20 minutes.

The program after lunch is dedicated to our work group in relation to tile drains. However, everybody are of course welcome to join.

Regards Bo
