SEGES

Feedback from 5 meeting

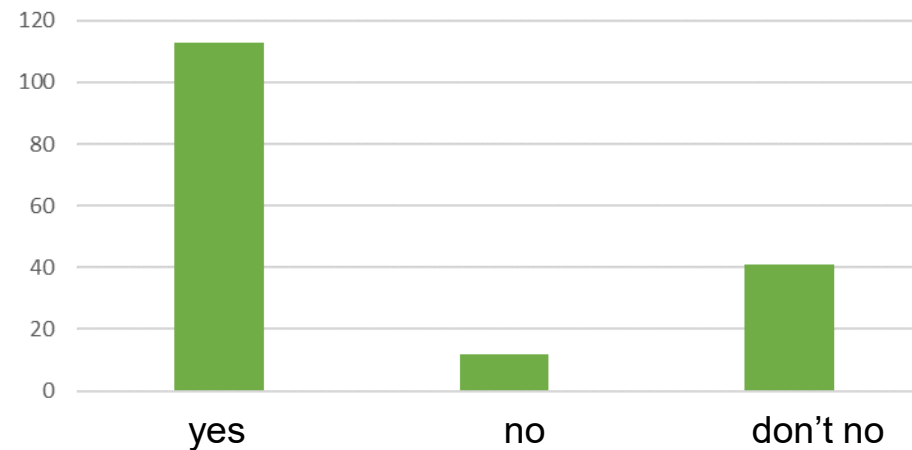

Was the meeting relevant for you?

Would you like to get information concerning water and environment?

Would you like to get involved?

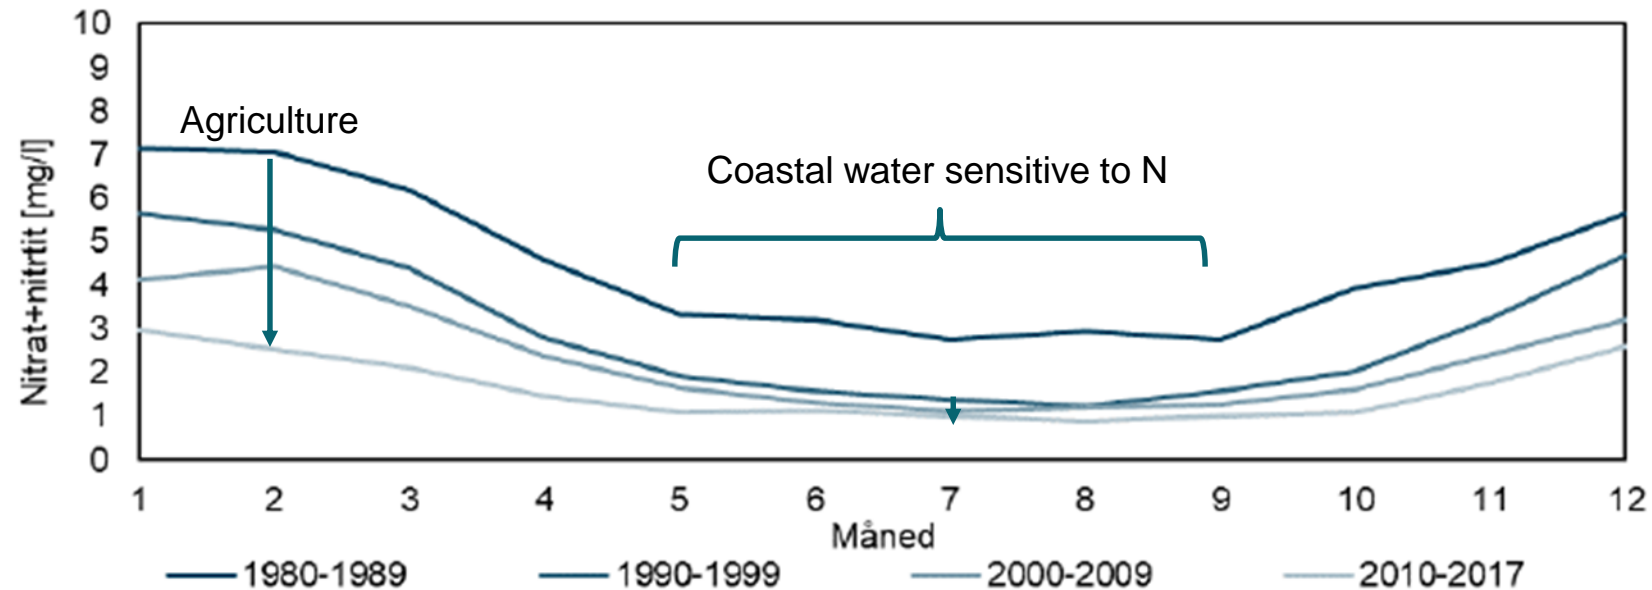

SEGES

Example – results – Odense Fjord Pilot

Nitrate concentration in stream

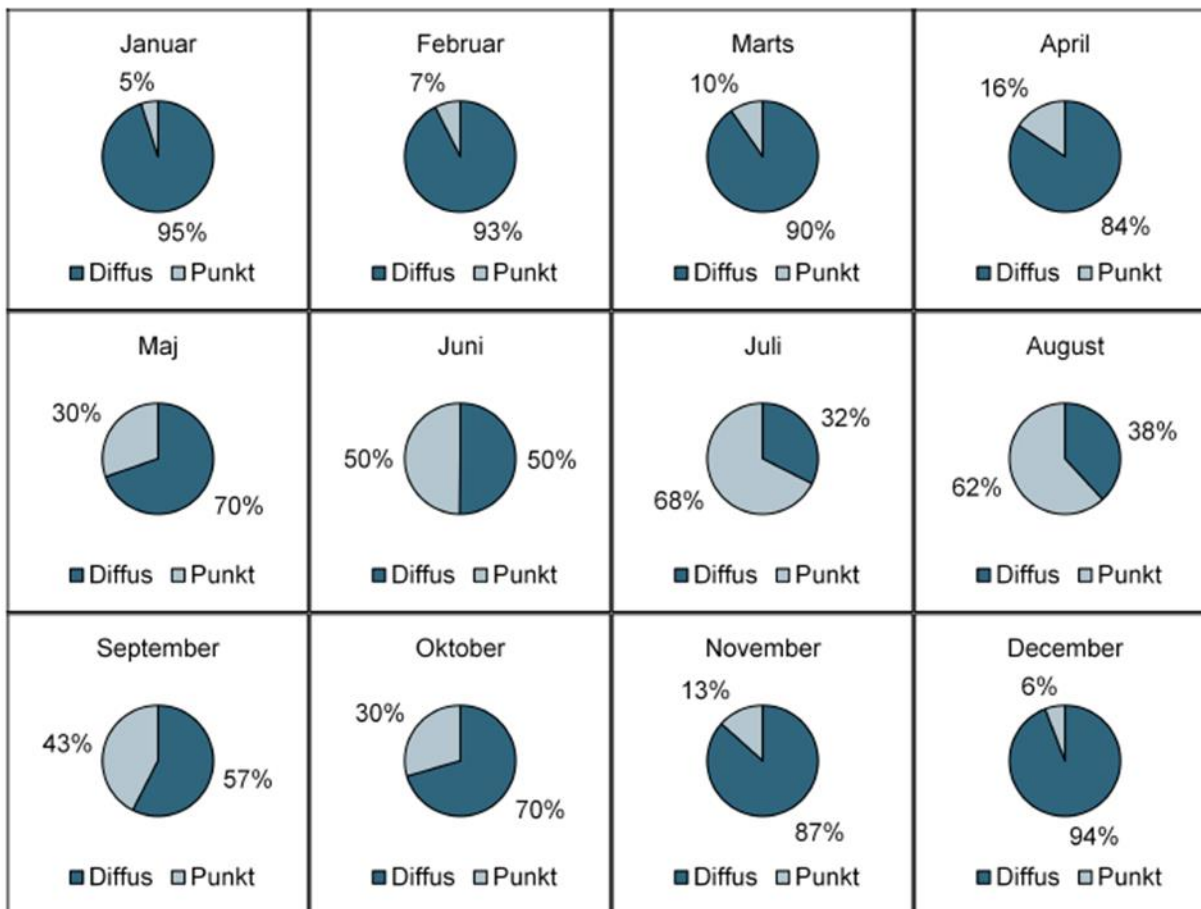

Example – results – Odense Fjord Pilot

Annual loads:

N: Diffuse 90 % / Point 10 %

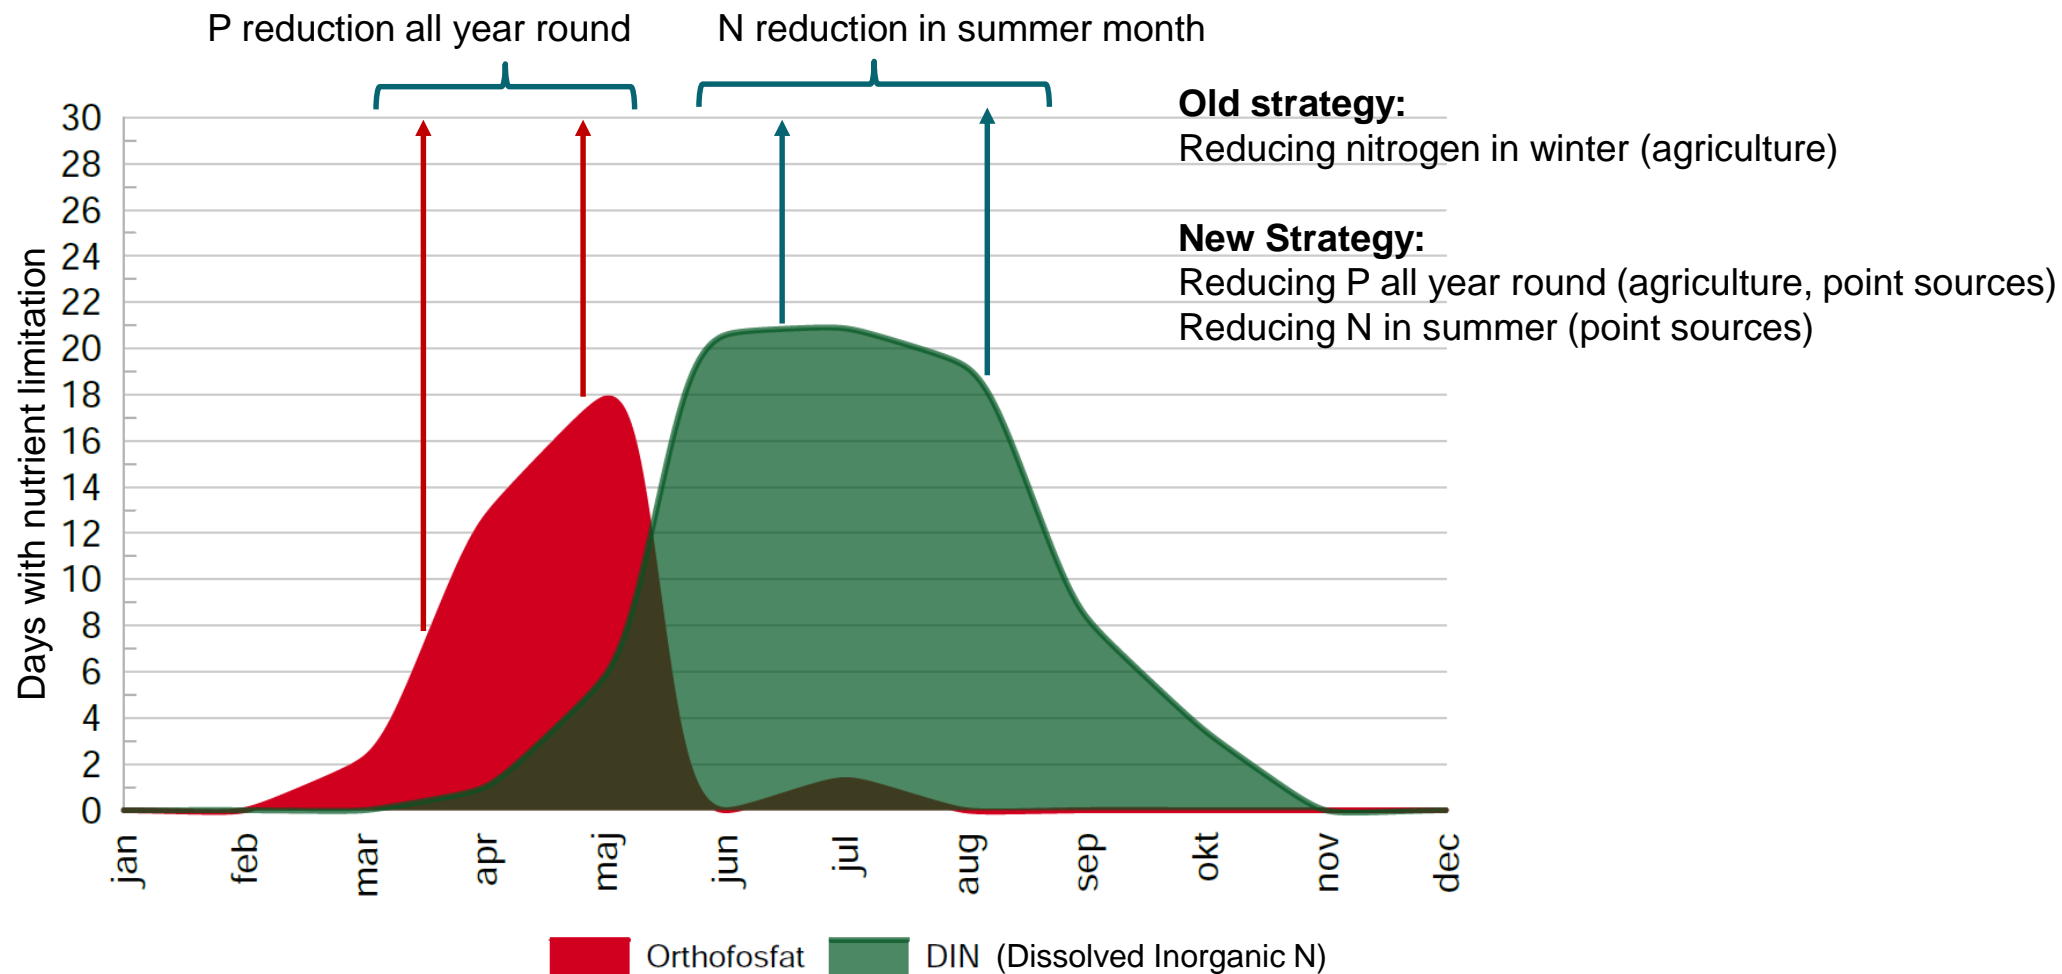

P: Diffuse 70 % / Point 30 %

N-load per month Point sources vs diffuse sources

Example – results – Odense Fjord Pilot

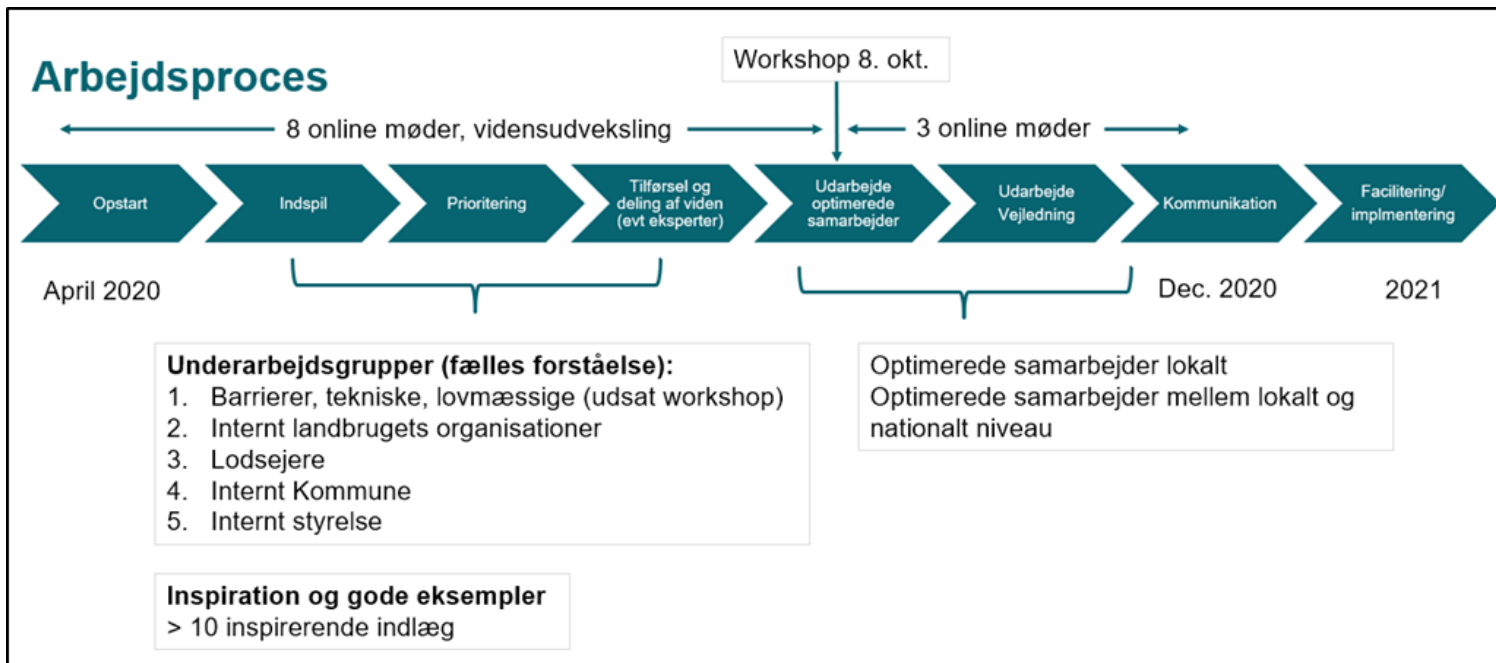

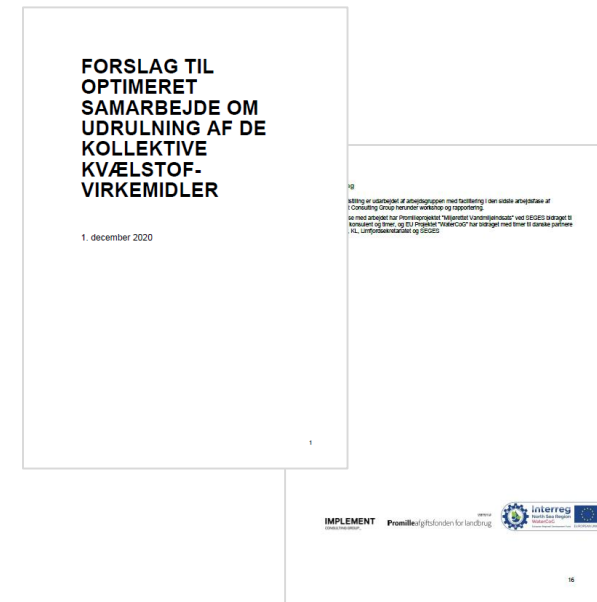

New strategy for better water environment

Better local cooperation for implementing wetlands, constructed wetlands etc.

- National working group 2020 – 2021 under Ministry of Environment. Initiative from SEGES/WaterCoG
 - SEGES (Flemming Gertz Chairman)
 - Danish Agricultural Agency
 - Danish Environmental Protection Agency
 - Danish Nature Agency
 - Municipalities
 - KL - Local Government Denmark
 - Danish Agriculture & Food Council
 - Catchment Officers

Output:
Report presenting at
Steering group meeting
9. Dec in the Ministry of
Environment

Communication
