Checklist: How to handle cows with claw lesions

Improving claw health on the cattle farm requires a systematic approach. This checklist will help you.

Nyhed | 01. september 2021

Antal sidebesøg: 0

Cattle farms with good herd claw health all have fixed routines – and any employee on the farm knows what to do and when. If you want to improve claw health on your farm, it can however be challenging to define the routines and delegate responsibility.
