

Strengthening local water management in agricultural landscapes of the Baltic Sea Region

Partner meeting 11-12th of May 2021

WP2

New and innovative solutions and key findings
in Waterdrive case areas

New and innovative solutions and key findings in Waterdrive case areas

Outline of WP2-workshop

Introduction and purpose of the workshop (Magnus)

Presentation of innovative solutions and key findings (Frank)

Breakout rooms – discussing and ranking (All)

Voting in order to prioritise among innovations and key findings (All)

Additional comments and conclusions (All)

Summing up (Magnus and Frank)

New and innovative solutions and key findings in Waterdrive case areas

Purpose of workshop

1. To present identified innovations and key findings from the case areas
2. To identify which challenges that are most important to work with to kick-off implementation locally (ranking by the groups)
3. To give input to the next phase of WP2, defining recommendations

Instructions for the breakout rooms (app 35 minutes)

1. You will be invited to a breakout room (smaller groups)
2. Please make sure that all participants have a voice in the dialogue
3. Based on the list of innovative solutions and key findings (Frank's presentation, slide 15-17) we want you to focus on the following question:

"Which innovations and/or key findings should be prioritised in order to kick-start implementation? Where do we need to start to get things going?"

4. One minute before the end of the breakout sessions you will have a notification.
5. After the group discussions you will be able to vote using Zoom's voting function.
